

WORKING DRAFT OUTLINE NOISE ELEMENT

[This working outline is meant to help frame the discussion on the element and will be revised based on input during the community plan update process.]

NOISE ELEMENT GOAL *(Draft)*

- Minimize the exposure of residential and other land uses to excessive noise levels

INTRODUCTION

The Noise Element addresses specific community noise and land use compatibility issues which relate to ambient noise levels from commercial activity; freeways; major streets; and operations associated with rail and aircraft.

NOISE ENVIRONMENT

(Discussion areas within the element could include):

MOTOR VEHICLE TRAFFIC NOISE

RAIL NOISE

AIRCRAFT NOISE

COMMERCIAL AND MIXED-USE ACTIVITY NOISE

INDUSTRIAL ACTIVITY NOISE

POLICIES *(Element policies to follow)*
